

GSM IDENTIFICATION FEATURE USER MANUAL

This document explains the steps users must follow to activate SMS verification processes by defining a GSM number on the Pratis system.

Step 1: Logging into the System

After accessing the following address, users fill in their **Username** and **Password** details on the screen that appears and log in to the system by clicking the **Login** button.

Homepage

OYAK | **MADEN METALÜRJİ**

1 User name Demo

2 Password

From October 1, 2026, you will need to use the code sent to your mobile phone to access Pratis. You can find the necessary steps to register your mobile phone number [here](#) . For more detailed information, please contact Customer Service.

[Forgot Password](#) **Login**

To log in, enter your username and password in the respective fields below and click the Login button.

Step 2: Accessing Profile Information

After completing the login process, click on the **Name Surname** field in the top right corner of the screen.

Step 4: Successful Completion of the Process

When the steps are completed correctly, a **green "Process Completed"** notification appears in the top left section of the screen.

The screenshot shows the user update form in the OYAK MADEN METALÜRJİ system. A green notification bubble with the number '1' points to the text "Process was successfully completed". The form fields are as follows:

Company	Erdemir	Name	Demo
Username	Demo	Surname	Kullanıcı
Old Password	*****	Title	
Password		Telephone	02161112233 02121234567
Password Again		Extension	
User Location	Please select	Fax	
Görülecek Ana Kategoriler	x Gıda		
<input type="checkbox"/> Purchase Contact	<input checked="" type="checkbox"/> Sale Contact	<input checked="" type="checkbox"/> Order Contact	
GSM1	05123456789	Registration Date	11.01.2016 15:07:00
SMSService1	Yes	Created By	Ebru Karakurt
GSM2		Update Date	25.12.2025 15:50:00

Following these steps, the GSM information is successfully defined, and the user can perform operations requiring SMS verification.
